PHOENIX TS

Information Systems Continuous Monitoring (ISCM)

BONUS! Cyber Phoenix Subscription Included: All Phoenix TS students receive complimentary ninety (90) day access to the Cyber Phoenix learning platform, which hosts hundreds of expert asynchronous training courses in Cybersecurity, IT, Soft Skills, and Management and more!

Course Overview

An ISCM program is established to collect information in accordance with preestablished metrics, utilizing information readily available in part through implemented security controls. This course teaches participants to assess and analyze security control effectiveness and organizational security status in accordance with organizational risk tolerance.

At the conclusion of this course, participants will be able to do the following:

- Identify how risk management helps protect government assets
- Examine Information Security Continuous Monitoring (ISCM) support of the three-tiered approach to risk management
- Describe how configuration management controls enable continuous monitoring
- Examine audit log support to continuous monitoring
- Understand counterintelligence and cybersecurity personnel support to continuous monitoring

Schedule

Currently, there are no public classes scheduled. Please contact a Phoenix TS Training Consultant to discuss hosting a private class at 301-258-8200.
