CISSP-ISSMP Certification Training

This CISSP concentration focuses on managerial skills such as how to establish, present, and govern information security policies and procedures to support business goals.

Course Overview

Our 5-day, instructor-led CISSP-ISSMP (Information Systems Security Management Professional) training and certification boot camp in Washington, DC Metro, Tysons Corner, VA, Columbia, MD or Live Online is geared toward information security professionals in a managerial position. It concentrates on project and risk management, managing a Business Continuity Planning program and implementing a security awareness program.

It covers five domains:

1. Security leadership & management
2. Security lifecycle management
3. Security compliance management
4. Contingency management
5. Law, ethics & incident management

This course will fully prepare you for the CISSP®-ISSMP® Certification exam.

You must have the [CISSP® Certification](#) and at least two years of professional experience managing a large, enterprise-wide security model. Though not necessary, it is also recommended that you have the [CompTIA® Security+ Certification](#).
