PHOENIX TS

Advanced Jira

BONUS! Cyber Phoenix Subscription Included: All Phoenix TS students receive complimentary ninety (90) day access to the Cyber Phoenix learning platform, which hosts hundreds of expert asynchronous training courses in Cybersecurity, IT, Soft Skills, and Management and more!

Course Overview

Our 2- day, instructor-led Advanced Jira course is intended for developers who are looking to advance their skills in this project management application. It will teach you:

- How to delegate administrator permissions effectively
- Insights into integrating Jira with Bitbucket Cloud and GitHub
- Ways to collaborate with your internal teams on service requests
- How to add permissions to fields
- How to set up SSO with Google
- How to copy over configuration settings between Jira instances

Schedule

Currently, there are no public classes scheduled. Please contact a Phoenix TS Training Consultant to discuss hosting a private class at 301-258-8200.

Course Outline

Module 1: Jira Server Administration

- Installing Jira for production use
- Upgrading Jira with an installer
