CAPM Certification Training FAQs

Who should earn the CAPM certification?

Project Managers and Project Team members in the early stages of their career.

What is the average salary for someone with a CAPM Certification?

According to payscale.com, a professional with the CAPM certification earns an average of $66,000 annually.

Does the CAPM Certification expire?

CAPM certification holders need to renew their certification every 5 years but they do not need to earn professional development units in between renewal periods to maintain their certification.

Is the CAPM Certification worth it?

If you are just starting out your project management career or you aspire to earn a role as a project manager, CAPM is a great starting point. It is also a great starting point for professionals who do not meet the project management hours required by the PMP certification.

If you have already been working as a project manager, then skipping straight to the PMP Certification Training course may be a better move for you.
