ISACA

CISA (Certified Information Systems Auditor)

By attaining a CISA certification, you can have tangible accreditation of your expertise within the field of systems security and increase your overall marketability and credibility in the eyes of many businesses and government entities

BONUS! Cyber Phoenix Subscription Included: All Phoenix TS students receive complimentary ninety (90) day access to the Cyber Phoenix learning platform, which hosts hundreds of expert asynchronous training courses in Cybersecurity, IT, Soft Skills, and Management and more!

Course Overview

Phoenix TS CISA course covers topics such as audit processes, IT Governance, Systems and infrastructure life-cycle management, IT service delivery, support and protection of information assets, business continuity and disaster recovery. This course also reviews maintaining systems security.

Our 5-day, instructor-led CISA (Certified Information Systems Auditor) training and certification boot camp in Washington, DC Metro, Tysons Corner, VA, Columbia, MD or Live Online is directed toward those who audit, control, monitor and assess a company's IT and business systems.

This course will prepare you for the CISA® Certification exam.

You should have at least five years of professional experience with IT systems, auditing or IS security. Though not required, it is also recommended that you have the CompTIA® Security+ Certification.

CISA Certification Training FAQs

What are the requirements for CISA Certification?

According to the ISACA website, candidates must complete the following to earn their CISA certification:
1. Successful completion of the CISA examination
2. Submit an Application for CISA Certification

3. Adherence to the Code of Professional Ethics
4. Adherence to the Continuing Professional Education Program
5. Compliance with the Information Systems Auditing Standards

What is the CISA Certification?

CISA was designed to globally recognize professions in the role of IS audit control, assurance, and security. Earning CISA certification validates a professional's skills, experience, knowledge, and capabilities to determine susceptibility, perform compliance reporting, as well as institute controls within an enterprise. We expanded on this question even further in our blog post, What is the Certificated Information Systems Auditor Certification (CISA)?

What is the average salary for someone with their CISA Certification?

According to payscale.com, the CISA Certification holders earn an average of $100,000 annually.
