(ISC)²

ISSMP (Information Systems Security Management Professional)

This CISSP concentration focuses on managerial skills such as how to establish, present, and govern information security policies and procedures to support business goals.

BONUS! Cyber Phoenix Subscription Included: All Phoenix TS students receive complimentary ninety (90) day access to the Cyber Phoenix learning platform, which hosts hundreds of expert asynchronous training courses in Cybersecurity, IT, Soft Skills, and Management and more!

Course Overview

Phoenix TS CISSP-ISSMP (Information Systems Security Management Professional) course concentrates on project and risk management, managing a Business Continuity Planning program and implementing a security awareness program.

Our 5-day, instructor-led CISSP-ISSMP (Information Systems Security Management Professional) training and certification boot camp in Washington, DC Metro, Tysons Corner, VA, Columbia, MD or Live Online is geared toward information security professionals in a managerial position.

It covers five domains:

1. Security leadership & management
2. Security lifecycle management
3. Security compliance management
4. Contingency management
5. Law, ethics & incident management

This course will fully prepare you for the CISSP®-ISSMP® Certification exam.

You must have the CISSP® Certification and at least two years of professional experience managing a

large, enterprise-wide security model. Though not necessary, it is also recommended that you have the CompTIA® Security+ Certification.
