# CySA+ (CompTIA Cybersecurity Analyst)

Phoenix TS is proud to be a CompTIA Authorized Platinum Partner; which is the highest level of partnership awarded by CompTIA!

**BONUS! Cyber Phoenix Subscription Included:** All Phoenix TS students receive complimentary ninety (90) day access to the Cyber Phoenix learning platform, which hosts hundreds of expert asynchronous training courses in Cybersecurity, IT, Soft Skills, and Management and more!

# **Course Overview**

Phoenix TS CySA+ accelerated course prepares participants for the CompTIA CySA + exam. Topics include: threat intelligence, vulnerability management, network reconnaissance and monitoring, secure policies and procedures, host and network security, identity management systems, and incident response as well as management of these resources.

Our 5-day instructor-led CySA+ (CompTIA Cybersecurity Analyst) training and certification boot camp in Washington, DC Metro, Tysons Corner, VA, Columbia, MD or Live Online

covers the following:

- Threat management
- Vulnerability management
- Security architecture and tool sets
- Cyber incident response
- Compliance and Assessment

This course will prepare you for the CySA+ Certification Exam.

# **Prerequisites**

You should have 4 years of hands-on experience with cybersecurity work. The Network+ and Security+ certifications are also recommended.

# **Course Outline**

# **Chapter 1: Understanding threats**

- Module A: Threats and vulnerabilities
- Module B: Attack strategies

## **Chapter 2: Proactive security**

- Module A: Threat intelligence
- Module B: Attack methodology
- Module C: Active defenses

# **Chapter 3: Operational security**

- Module A: Controls and procedures
- Module B: Automation and process improvement

#### Chapter 4: Vulnerability management

- Module A: Vulnerability testing
- Module B: Vulnerability management programs
- Module C: Vulnerability remediation

#### **Chapter 5: Security testing procedures**

- Module A: Vulnerability assessment tools
- Module B: Analyzing scan results

### **Chapter 6: Secure infrastructure**

- Module A: Infrastructure comparisons
- Module B: Secure network infrastructure
- Module C: Identity systems

## **Chapter 7: Secure hosts and data**

- Module A: Secure operating systems
- Module B: Data protection

## **Chapter 8: Secure software**

- Module A: Application exploits
- Module B: Secure development
- Module C: Software testing

# **Chapter 9: Threat analysis**

- Module A: Threat detection techniques
- Module B: Detection and analysis tools

# **Chapter 10: Incident Response**

- Module A: Incident response planning
- Module B: Incident response procedures

• Module C: Digital forensics

# **Exam Information**

## **CySA+ Certification Exam Details:**

Exam code: CS0-003Number of questions: 85

• Question types: multiple choice & performance-based

• Passing score: 750

• Test Duration: 165 minutes

# **CySA+ Certification Exam Domains:**

Domain	Weight Percentage
Security Operations	33%
Vulnerability Management	30%
Incident Response and Management	20%
Reporting and Communication	17%
Total	100%
