COMPTIA

CompTIA Security+

Phoenix TS is proud to be a CompTIA Authorized Platinum Partner; which is the highest level of partnership awarded by CompTIA!

BONUS! Cyber Phoenix Subscription Included: All Phoenix TS students receive complimentary ninety (90) day access to the Cyber Phoenix learning platform, which hosts hundreds of expert asynchronous training courses in Cybersecurity, IT, Soft Skills, and Management and more!

Program Overview

Our 5-day instructor-led Security+ training and certification boot camp in Washington, DC Metro, Columbia, MD or Live Online is aimed at IT security professionals and will teach you the basics of network security. By the end of this course, you will be able to secure a network, identify and mitigate risks, and manage access control.

Phoenix TS Security+ study guide and accelerated course provides participants with preparation for the Security+ certification exam. Participants will gain the knowledge and skills needed to protect computers and networks from theft, destruction of information, or disruption of communication.

Program Learning Objectives

This course will teach the skills needed to:

- Recognize threats, attacks, and vulnerabilities.
- Use security technologies and tools.
- Design secure networks and systems.
- Manage identity and access.
- Understand risk management and compliance.

- Apply cryptography and PKI.
- Implement incident response and recovery.
- Secure networks, including wireless.
- Comprehend cloud and virtualization security.
- Establish enterprise security measures.

This course will also fully prepare you for the CompTIA Security+ SY0-701 Certification exam.

Course Outline

Chapter 1: Security fundamentals

Module A: Security concepts

Module B: Understanding threats

Module C: Enterprise security strategy

Chapter 2: Risk management

Module A: Risk management programs

Module B: Security audits

Module C: Conducting security assessments

Chapter 3: Organizational security

Module A: Social engineering

Module B: Security policies

Module C: User roles and training

Chapter 4: Cryptography

Module A: Cryptography concepts

Module B: Public key infrastructure

Chapter 5: Network connectivity

Module A: Network attacks

Module B: Packet flow

Chapter 6: Secure network configuration

Module A: Network security components

PhoenixTS

301-258-8200 | Sales@PhoenixTS.com | www.PhoenixTS.com

Module B: Secure network protocols

Module C: Hardening networks

Chapter 7: Authentication

Module A: Authentication factors

Module B: Authentication protocols

Chapter 8: Access control

Module A: Access control principles

Module B: Account management

Chapter 9: Enterprise architecture

Module A: System vulnerabilities

Module B: System architecture

Chapter 10: Secure assets

Module A: Physical security and safety

Module B: Securing data

Chapter 11: Securing specialized systems

Module A: Securing hosts

Module B: Mobile security

Chapter 12: Secure applications

Module A: Application attacks

Module B: Securing applications

Chapter 13: Disaster planning and recovery

Module A: Secure operations

Module B: Resilience and recovery

Chapter 14: Threat detection and response

Module A: Security monitoring

Module B: Incident response procedures

Exam Information

Security+ Certification Exam Details:

- Exam code: SY0-701
- Number of questions: 90
- Question types: multiple choice
- Passing score: 750 on scale of 100-900
- Test duration: 90 minutes
- Delivery – Pearson VUE
- Price – \$370

Exam focuses on these skill areas:

Domain	Percentage Weight
General Security Concepts	12%
Threats, Vulnerabilities and Mitigations	22%
Security Architecture	18%
Security Operations	28%
Security Program Management and Oversight	20%

CompTIA Security+ Follow On Courses

After earning CompTIA Security+ training, cybersecurity professionals can take the next step by pursuing an intermediate skills-level cybersecurity certification, such as CompTIA Cybersecurity Analyst (CySA+) or CompTIA PenTest+.

IT pros can pursue CompTIA Advanced Security Practitioner (CASP+) to prove their mastery of cybersecurity skills required at the 5- to 10-year experience level. CASP+ is the pinnacle of cybersecurity certifications and includes performance-based questions.

- **CySA+ (CompTIA Cybersecurity Analyst)**
- **CompTIA PenTest+**
- **CASP+ (CompTIA Advanced Security Practitioner)**
