CYBER PHOENIX

Cyber Security: Threat Analysis and Response Solutions Training

This four-day course addresses the most pressing issues facing cyber-security from both a national and global perspective.

Due to Covid-19 safety restrictions PhoenixTS will temporarily be unable to provide food to our students who attend class at our Training Center; however, our Break Areas are **currently open** where students will find a constant supply of Coffee, Tea and Water. Students may bring their own lunch and snacks to eat in our breakrooms or at their seat in the classroom or eat out at one of the many nearby restaurants.

Course Overview

Our 3-day, instructor-led Cyber Security: Threat Analysis and Response Solutions Training course covers the following topics:

- Threat identification
- Insider threat prevention
- Detection and mitigation
- Assessment of security assurance
- Information terrorism
- Information security management standards
- Public policy drivers
- The role of information security professionals

Before taking this course, you should have some knowledge of threat identification, detection and mitigation, security assurance and network security protocol.
