PHOENIX TS

eMASS Direct User Training

Course Overview

The 5-day, instructor-led eMass Direct User training is designed to teach students to fully navigate the Enterprise Mission Assurance Support Service application to support the creation, assessment, and authorization of a completed A&A package. By the end of the course, students will be able to:

- Describe the role of eMass in the DoD's Risk Management Framework
- Define eMass implementation of the authorization process
- Provide in-depth explanations of eMass features
- Operate through eMass to achieve a completed RMF A&A package

Due to the nature of this course and the sensitivity of eMass, this class can only be run at the clients location. Clients must have the ability to connect to the .mil network in order to access the BETA version of eMass.

Course Outline
