PHOENIX TS

Information Security Risk Assessment through Data Collection and Analysis Training

This training course is directed toward professionals with job roles related to information security.

BONUS! Cyber Phoenix Subscription Included: All Phoenix TS students receive complimentary ninety (90) day access to the Cyber Phoenix learning platform, which hosts hundreds of expert asynchronous training courses in Cybersecurity, IT, Soft Skills, and Management and more!

Course Overview

This four day instructor-led course teaches the security practitioner to find out:

- What needs protection
- What risks those assets are exposed to
- What controls are in place to offset those risks
- Where to focus attention for risk treatment

Expert lecture and exercises enforce the true value and purpose of information security risk assessments. Student gain proficiency in conducting effective risk assessments that provide defensible analysis of residual risk association to present risk treatment options. This course gives students the tools and skills to acquire a quick, reliable, and thorough risk assessment for key stakeholders.

Schedule

Currently, there are no public classes scheduled. Please contact a Phoenix TS Training Consultant to

discuss hosting a private class at 301-258-8200.
