PHOENIX TS

Windows Systems Analysis

Due to Covid-19 safety restrictions PhoenixTS will temporarily be unable to provide food to our students who attend class at our Training Center; however, our Break Areas are **currently open** where students will find a constant supply of Coffee, Tea and Water. Students may bring their own lunch and snacks to eat in our breakrooms or at their seat in the classroom or eat out at one of the many nearby restaurants.

Course Overview

This 5 - day course will teach students the analysis process including all of the decision made during the process. This course will cover: malware detection, user activity and how to set up a testing environment. At the end of this course, participants will be able to:

- Understand and follow the analysis process
- Find Malware in Windows Systems
- Examine user activity on Windows systems
- Conduct intrusion analysis on a web server
- Set up and test a lab environment

Duration

5 Days

Course Outline

Module 1: The Analysis Process

Module 2: Finding Malware

Module 3: User Activity

Module 4: Web Server Compromise

Module 5: Setting Up a Test Environment
